Questions and Answers:

1. Q: *The mechanical alternate that was added in Addendum 4 comes with warranty implications for the mechanical equipment and roofing materials. Please provide direction on how bidders are to handle this.*
 - a. **Due to the potential issues this mechanical equipment could cause, we are postponing the bid date. We are evaluating the system with the owner, the building owner, and the mechanical designer from the previous project to ensure warranties are kept, equipment runs as it should, and the space can function as it was intended. The mechanical team will plan to issue one final addendum at the beginning of next week to resolve all issues surrounding the mechanical units before the project bids.**
